

IAN TREMAINE

GRAPHIC • WEB • UX

DESIGNER

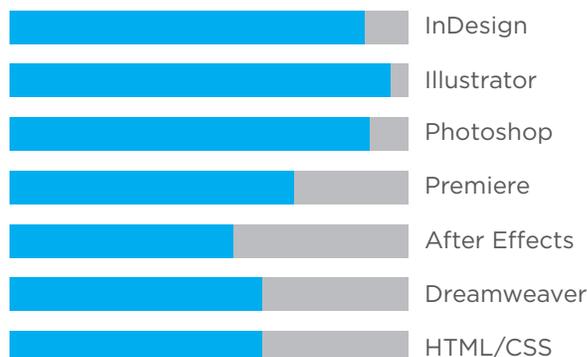

About Me

I am a multifaceted graphic & web designer, serial hobbyist, and cool dad that loves to create no matter the medium. My work ranges from simple logo designs to interactive web based applications. I thrive in a fast paced environment that challenges me to think creatively and make engaging content.

Work Experience

- Present** ● **Graphic Designer / Web Developer**
Ortho Clinical Diagnostics, Raritan NJ

Currently, I am consulting with Ortho Clinical Diagnostics where I work as the lead graphic & web designer for the US Marketing team. In this role, I am responsible for designing various trade show booths, creating interactive digital content, micro-sites, print materials and video content that meet brand guidelines.
- 2013** ● **Lead Graphic Designer**
Stor-All, Dunellen NJ

My role here was packaging & product designer with the main objective of creating new packaging designs and die lines. I would also design new storage products to be manufactured. Another aspect of my job entailed the building of working packaging prototypes for trade shows and potential customers.
- 2013** ● **Graphic Designer**
Blueprint Media LLC, Chester NJ

I worked on a small marketing team as the sole designer. Projects would include print design such as catalogs, flyers, ads, and trade show materials or web design such as website and application front end design, HTML/CSS email blasts and digital flash banners.
- 2012** ● **Packaging Designer**
Technical Pro, Edison NJ

In this packaging designer role, I designed PDQ's, sales sheets, and trade show materials (catalogs, sign-age, etc...). I was also responsible for shooting and retouching product photography for the company website and packaging/sales materials.
- 2011** ● **Production Artist**
Forever Collectibles, Edison NJ

While working with a team of designers, my role was to create or update sports memorabilia products. I would also communicate with the over sea factories to ensure correct and timely product production.
